

## GENERAL FEEDING ADVICE PRELACTO PRO (in kg)

| ROUGHAGE →<br>FEED ↓             | ONLY<br>CORNSILAGE                    | SILAGE + GREEN<br>(RYE / OATS)      | GREEN<br>(RYE / OATS)               | BERSEEM <sup>3)</sup>                 |
|----------------------------------|---------------------------------------|-------------------------------------|-------------------------------------|---------------------------------------|
| <b>Prelacto Pro</b>              | <b>3.5</b>                            | <b>3.5</b>                          | <b>3.5</b>                          | <b>3.5</b>                            |
| <b>Corn silage</b>               | <b>12.5-15 (4.5 dry<sup>1)</sup>)</b> | <b>6.5-8 (2.0 dry<sup>1)</sup>)</b> | <b>—</b>                            | <b>—</b>                              |
| <b>Green Rye / Oats</b>          | <b>—</b>                              | <b>10-12 (2.0 dry<sup>1)</sup>)</b> | <b>20-25 (4.0 dry<sup>1)</sup>)</b> | <b>...</b>                            |
| <b>Berseem</b>                   | <b>—</b>                              | <b>—</b>                            | <b>—</b>                            | <b>17.5-20 (3.5 dry<sup>1)</sup>)</b> |
| <b>Wheat straw <sup>2)</sup></b> | <b>3.5</b>                            | <b>3.5</b>                          | <b>4.0</b>                          | <b>4.5</b>                            |

1) Kilogram given in dry matter

2) Only use best quality wheat straw to stimulate intake

3) Berseem is NOT ideal as a dry cow feed, De Heus advice is to feed corn silage and wheat straw to get the best results
